Letter No.1360/1418, dated the 25th March 1925, from the Director, Geological Survey of India, to the Resident in Mysore.

An attempt is being made to record in the Annual Reviews of the Mineral Production of India published by this Department, separate statistics for limestone and dolomite produced in India including Indian Slates and to tabulate the outputs of these minerals according to the uses to which they are put. Both Limestone and dolomite are used for building purposes and as a flux in iron and other metallurgical industries whilst limestone is used for the manufacture of lime and cement. I have the honour to request you kindly to let me know if it would be feasible to collect separate figures for limestone and dolomite produced in the Mysore State and to record their output in the annual return of mineral production according to the uses to which they are put

FROM

B. JAYARAM, ESQUIRE, F.G.S.,
Director, Mysore Geological Department.

To

K. V. Anantaraman, Esq., B.A.,
Secretary to Government of
His Highness the Maharaja of Mysore,
Revenue Department. BANGALORE.

SIR,

With reference to your letter No.I.C.6977, Geol.127-24-2, dated 16th April 25, on the subject of collection of statistics regarding limestone and dolomite produced in the Mysore state as required by the Geological Survey of India, I have the honour to state that there is only one metallurgical concern using dolomite as a flux and that is the Mysore Iron Works, Statistics for dolomite may therefore be collected and published in the Annual Administration reports As regards limestone I beg to state that, it is not used at present as a building stone nor is it used any where within the State for the manufacture of lime or cement. It is therefore considered unnecessary to collect Statistics in regard to this but in case it is used for any of the purposes refered to above, necessary statistics will ofcourse be collected and published in the Administration Reports of this Department.

I have the honour to be,
S i r,
Your most obedient servant,

B. Jayaram
Director,
Mysore Geological Department.

SIR,

With reference to your letter No. I.C. 7590/Geol. 127-24-4, Dated. 8-5-25, regarding the collecting of Statistics relating to limestone and dolomite production in the State, I have the honour to state that it is quite feasible to collect separate figures for these two minerals and publish the same in the Departmental Administration Reports in future years, so that they may be available for the Geological Survey of India.

2. In regard to your enquiry as to whether the information is available at present, I beg to reply in the negative. For the current year, 1924-25, figures will be obtained from the Mysore Iron Works and other producers and will be incorporated in the Administration Report.

I have the honour to be,

Sir,

Your most obedient servant,

B. Jayaram
